## CONGRESS.

Blair in the House Says the Senate Overreached Its Authority in Certain Matters.

The Women's Silk Culture Association Presents a Silk Flag to the National Congress.

Newspaper Men Give Their Opinions in Favor of Reduced Postage on Published Matter.

Congressional News.

WASHINGTON, Jan. 23.—The chair laid before the senate yesterday, heretofore offered, to authorize the secretary of the interior to ascertain upon what terms Creek and Seminole Indians would surrender their remaining interest in the Oklahoma lands. Vest amended the resolution so as to include the Cherokee nation in the inquiry.

HOUSE.

Hurd, as a privileged question, offered a preamble and resolution reciting that certain bills appropriating money from the treasury, originating in senate are now on the speakers table to wit: Blair educational bill and many others and that it is asserted that those bills are in violation of the privileges of the house, and to exclusively original bills for raising revenue and directing the judiciary committee to inquire into the power of the senate to originate bills appropriating revenue and report to the house at any time.

NOTES.

When the house met a handsome silk American flag ornamented the wall behind the speaker's chair, and after the reading of the journal the speaker laid before the house a communication from the Philadelphia Woman's Silk Culture association tendering the flag to the house and beseeching for it a place in the halls of the national congress.

Nixon, of the Chicago Inter-Ocean, Mumford of the Kansas City Times, and Locke, of the Toledo Blade, were before the house committee of post roads to-day in behalf of a reduction of newspaper postage from one cent to two cents per pound. Should the committee find it impracticable to comply with the recommendation it will endeavor to secure passage of the bill under suspension of rules.

Beverly Tucker, of Virginia, referring to the various publications about the alleged conference at Albany between Cleveland and himself, furnishes an absolute denial of the alleged visit and says he has not been out of Washington City for over two months.

The report that Senator Garland recently visited Albany, is denied.

On motion of Mr. Ellis an amendment was adopted directing the secretary of the interior to prepare a list of all approved and pending claims of citizens on account of Indian depredations and report the same to congress on the first Monday of next December.

Mr. Chase then spoke in support of an increase in the appropriation for the Indians for the Fort Peck agency.

Mr. Hewitt, of New York, read a letter he had received from Bishop Whipple, of Minnesota, who is now dying on the banks Mediterranean, employing good offices for the Indians and asking him to request the president elect to be deeply careful in the selection of a commissioner of Indian affairs. No position, says the bishop, in the gift of the president can bring to his party greater honor or greater fame.

Mr. Cutcheon offered an amendment appropriating \$50,000 for an emergency fund to be applied in case of necessity for the relief of extraordinary cases of distress among the Indian tribes. Ruled out on a point of order.

On motion of Mr. Manzanares, an amendment was adopted appropriating \$25,000 for the erection of an Indian industrial school at Santa Fe.

Mr. Rogers, of Arkansas, moved to amend the provision prohibiting the introduction of ardent spirits into the Indian territory, by striking out the minimum penalty imposed for the violation. The prohibition was lost.

Mr. Cutcheon offered an amendment providing that any Indian committing against the person or property of another Indian or other person any of the following crimes: Murder, manslaughter, rape, assault with intent to kill, arson, burglary and larceny, shall be subject to the laws of the territory in which committed, and shall be tried therefore in the same courts, in the same manner and shall be subject to the same penalties as are other persons charged with the commission of said crimes, and permitting the Indians to prosecute in any court, any civil action in law and equity.

Adopted.

On motion of Mr. Throckmorton an amendment was adopted giving the United States district court for the western district of Arkansas civil jurisdiction over the five civilized tribes of Indian territory.

Mr. Ryan offered an amendment authorizing the president to open negotiations with the Creeks, Seminoles, Cherokees for the purpose of opening

to settlement, under the homestead laws, the unassigned lands in the Indian territory ceded by them to the United States (these are Oklahoma lands.) Adopted.

The committee rose and reported the bill to the house. The previous question was ordered. The bill passed and the house adjourned.

FORFEITURE BILL.

The Oregon Central land forfeiture bill and the senate amendments to which were concurred in by the house to-day, is the first forfeiture bill that passed both houses of the present congress. It is substantially the same as the bill originally prepared by the Astoria chamber of commerce, with the addition of an amendment offered in the house by Mr. George for the purpose of protecting settlers. It forfeits all the unearned lands between Forest Grove and Astoria.

Carroll D. Wright, of Boston, commissioner of labor statistics; collector of customs, D. McLaughlin, district of Michigan; pension agents, A. T. Wickoff, Columbus, Ohio; postmasters, W. R. Ellis, Goshen, Ind.; O. J. DeWolfe, Fortoria, O.; Benjamin Neale, Eaton, O.; M. B. Kays, Conneaut, O.; J. K. Allen, Alliance, O.; Jane S. Sinclair, Jonesville, Mich.

SHARON CASE.

In order to obtain a clear title of certain property here, T. J. Fisher, real estate dealer, filed a bill against Wm. Sharon and Sarah Althea Hill, otherwise Sharon, asking a decree establishing that by conveyance from John B. Atley and wife, Sharon acquired no beneficial interest in certain lots of ground and that no right of dower accrued to the said Sarah Althea, and that she be enjoined from setting up the right of dower in the lots title, which was in John B. Atley's name and was conveyed to Sharon by him and to the plaintiff. He further avers that the defendant, Sarah Althea Hill, claimed to be the wife of Sharon, and in December last a decision was made in San Francisco declaring that she was the wife of Sharon and by reason of such decree she has the apparent right of dower.

THE SUFFRAGISTS.

At a secret session of the Woman's Suffrage association to-day, Mrs. Blake, chairman of the committee on the plan of work, made a report which was adopted, recommending that the women of the several states labor with their legislatures for the passage of suffrage laws and mark every member antagonizing the measures in favor of women in order to oppose them. The work before congress for the passage of the Sixteenth amendment is to be continued. The women in the several states are also requested to oppose the senators and representatives voting against the woman suffrage. The association closed its seventeenth annual session this morning with an able speech by its president, Elizabeth Cady Stanton.

JUDGE MATTHEWS.

Upon a meeting of the supreme court of the United States to-day, Justice Miller, acting chief justice, made the following announcement: The court is informed of the death of our associate, Chief Justice Matthews, though not unexpected, the event is none the less one by which the members of the court are all deeply affected, both on account of our regard for the deceased and our sympathy for our brother in his affliction. We shall attend in a body such funeral ceremonies as may take place in this city and as a further testimony of the sense of our common loss and our sympathy with the family of the deceased, this court will now adjourn until Monday next.

CIVIL SERVICE.

Matchler, Barksdale and Lyman have been appointed a business committee by the chairman of the committee on the reform of the civil service to consider Representative Taylor's bill to prevent the discharge from government employ any soldier or sailor, or widow or dependent relative of any soldier or sailor, without sufficient cause.

Successful Experiments on the Harlem Branch of the Consolidated Road.

BRIDGEPORT, Conn., January 22.—The new departure in telephoning, called the "locophone," bids fair to be a success. The experiments made upon the Harlem branch of the consolidated road have proved entirely satisfactory. Two cars have been run in opposite directions at fifty miles an hour and messages sent and received from one car to the other while in motion. In each car is a telegraphic table and instrument for the operator. The circuit is made by induction. Telephone communication has also been accomplished in these cars under the above conditions. The "locophone" has not yet been perfected, but there is every reason to believe that it will be. A company has been formed called the "Railway Telegraphic company," and a board of directors elected. The company own the patents, rights, etc., of conducting this new system of "locophoning." In a few days a public trial will be made and the press invited to witness its results.

A Republican Victory.

WHEELING, January 22.—The nail manufacturers have advanced nails twenty cents per keg.

At the municipal election to-day Jacob W. Grubb, Republican, was elected mayor over Mortimer Pollock, Democrat, by a majority of 900. This is the first Republican mayor for twenty years.

## BURIED ALIVE.

An Avalanche Entombs a Church and Its Occupants and Twenty Laboring Men.

Fears Entertained in England that Stewart is in Serious Trouble in Egypt.

The Number of Business Failures Still Increase in the West and South.

A Horrible Burial.

PARIS, 23.—An avalanche occurred at at Metvules in the department of Haute-saone and crushed a church in which a number of persons were worshipping. All were buried under the snow, as was also twenty men working in a marble quarry near by. A volunteer force is now engaged in digging out the victims of the disaster.

Causes Great Anxiety.

LONDON, Jan. 23.—The war office has received no news concerning General Stewart's advance since the account of the battle Saturday. The absence of news causes considerable anxiety.

The Times, Telegraph and Standard have not yet received any reports of the battle at Abu Klea, although they had special correspondents in the field. This fact increases the anxiety concerning the fate of Stewart, and the belief has become prevalent that the battle at Wella was more severe than the government is willing to admit. There is an impression that the official reports were "colored" at the war office and the special dispatches intercepted by press centres because they contained information which throw objectionable light on the affair.

Private advices received late this afternoon from Kool assert the rebels surrounded General Stewart in the desert, where he had taken up an entrenched position to await reinforcements from General Wolsey. Deserters from the rebel lines state the mahdi officers consider the affair at Abu Klea a drawn battle. The Arabs were neither routed nor pursued and fell back in an orderly manner not in the least demoralized by the outcome of the engagement.

They recovered themselves so quickly and effectually that General Stewart dare not move and was compelled to intrench himself on the scene of the conflict.

Weekly Record.

NEW YORK, Jan. 23.—The failures for the last seven days are reported by R. G. Dunn & Co.: The number for the United States is 371; Canada, 40. Total, 411 as compared with a total of 490 last week and 457 the week previous. Casualties are still unusually numerous in the western and southern states and there is no increase in Canada. The southern section is about up to the average.

War in South America.

Buenos Ayres, Jan. 23.—The increase of armed bodies is regarded as sedition against the government. The chief of police has an armed force with Remington rifles. The people are quiet.

Starving Indians.

SAN FRANCISCO, January 22.—The Plute Indians are said to be starving on their barren reservation in Nevada. Not a cent of the congressional appropriation of \$7,000, secured by Senator Dawes, of Massachusetts, has reached them. The winter in Nevada has been very severe. One reservation is so barren that nothing could be grown on the land to provide for them. The Indians number about 7,000. Almost their sole subsistence has been pine nuts, fish from the lakes and rabbits. The latter is the only game on the reservation.

Accepting the Proposition.

PITTSBURGH, January 22.—At a meeting of the creditors of Oliver Bros. & Phillips and Oliver & Roberts' wire company to-day, the committee reported in favor of accepting the proposition of the firms, with some slight modification. Separate notes will be given for the interest, payable semi-annually, and the mortgage creditors will not be asked to sign the extension, but will carry loans. James Dounell declined to serve as one of the trustees and James M. Bailey, an iron merchant, was selected in his place. This settles the extension and the papers will be signed as soon as prepared.

Deficiencies Discovered in Montreal Customs Broker's Accounts.

MONTREAL, Can., January 22.—An investigation into the frauds practiced upon the government and their clients by the absconding customs brokers, by means of counterfeit invoices, revealed deficiencies so far amounting to between \$40,000 and \$50,000, which have been made good by the importers under pain of confiscation of their goods.

North Carolina Heard From.

RALEIGH, N. C., January 22.—The two houses of the North Carolina leg-

islature, by a unanimous vote of both Democrats and Republicans, endorsed the administration of Governor Jarvis, and recommended him to Cleveland for a cabinet position.

Scattered Coal Barges.

HENDERSON, Ky., January 22.—The tow boat, Harry Brown, of Pittsburgh, with twenty-two barges of coal, struck pier No. 6, off Henderson bridge, at 1 o'clock this afternoon, and sank eight barges, and with them was lost two boats. After striking the pier she flanked around on pier No. 7, breaking the tow in two, which was the cause of the loss of most of the barges. In the break-up five of the barges went to the right of Henderson island, the balance to the left, lodging against it. Brown was not hurt, and is now engaged in collecting the scattering barges.

Freight and Passenger Rates.

PHILADELPHIA, January 22.—It is admitted at the main office of the Pennsylvania railroad that the company is cutting west-bound freight rates, but the officials say that the company is merely meeting the prices quoted by other lines. There is no change in the passenger rates to-day.

CHICAGO, January 22.—At a meeting of the freight representatives of the east-bound lines to-day, it was agreed to maintain the 30 cent rate on grain to New York. Another meeting will be held to-morrow.

Probably in Canada.

GREENVILLE, Pa., January 22.—The closing of the Jamestown savings bank has paralyzed business in that thriving town. It appears now that the failure will amount to more than \$50,000, and the result will be sadly apparent. Already three assignments have been made by parties who had connection with that institution. It has been an open secret that within the past ten days over \$15,000 had been put into the bank bridge over the affairs. The Mercer bank loses about \$3,000, and the Kinsman, Ohio, National bank also lose a large amount. No information of the whereabouts of Cashier Martin has yet been received.

In Retaliation.

VICTORIA, B. C., January 22.—An Indian woman has come to the Sylvestor trading post on Liard river and reports the killing of five Indian men and one woman by Takaw Indians, who also took one woman and two children into captivity. The woman made her escape and traveled two months before she reached the post, in a half famished condition. The murdered Indians had been saucy and thieving during the summer towards the whites and the murders were in retaliation for the Indian killed by them in 1883.

The Cold Water Army in Iowa.

DES MOINES, January 22.—Four hundred delegates from nearly all parts of the state met in a temperance convention to-day to consider measures to secure a better enforcement of the prohibition law. Resolutions were passed denouncing the saloons, and calling on the home school and church to unite against the common enemy, and calling for education as to physical and industrial results of intemperance, declaring that the political parties which desire the support of the prohibitionists, must take no backward step. They will call on the next general assembly to enact necessary amendments and an Iowa congressman to work for national prohibition.

A Blaze in Columbus.

COLUMBUS, O., January 22.—The Woodrow, Scott & McAllister's furniture store was burned to-night. The stock is valued at \$35,000. It is almost a total loss, but is fully covered by insurance. The building is owned by I. Ewing Miller; damage, \$5,000, covered by insurance.

He Took Too Hot a Bath.

CINCINNATI, January 22.—Coroner Carrick has determined to hold an inquest in the case of William Heffner, insane, who died at the Long View insane asylum from the effects of scalding water used by an attendant in giving him a bath. The attendant has been discharged.

Burned to Death.

A Virginia Fight Ends in the Death of One of the Instigators of the Row.

Eaten by Wolves.

KANKAKEE, Ills., Jan. 23.—A. H. Butts, secretary of the Chicago Lumber Company, just returned from his logging camp, near Metropolitan, Mich., a point in the pineries forty miles north of Escanaba. He says that the night before he left the camp the mercury had dropped to 43 degrees below zero. This was the climax of four days extreme weather. That night an old trapper and Indian hunter named Tom Dudgeon, returning from hunting, was killed and eaten by wolves within two miles of the camp. The wolves there are more numerous and bold than usual on account of the scarcity of small game. His friends searching for him the next morning, found his closely gnawed bones and thirteen dead wolves lying near him, pierced by his rifle balls and his Winchester rifle by his side with one chamber still loaded.

Phelan Will Prosecute.

NEW YORK, Jan. 23.—The World this morning publishes an interview with Captain Phelan, in which he states that he intends to prosecute all those concerned in the murderous attack upon him. He will protect the secrets of those in Ireland, but will pursue O'Donovan Rossa and his gang until they are punished for conspiring to murder him. Phelan states he has documents in Kansas City that will greatly aid him and show he was not a traitor.

In the melee Elias Collier emptied the contents of his revolver into Feltz, killing him instantly. The murderer fled to Kentucky and is still at large.

Fifty Thousand a Year.

To be sure. You've "only got a cold," "only a cough," "Be all over it in a few days." "Don't worry about me." Well we won't. But 50,000 people die every year in the United States from consumption. And every soul of them began that way. Better stop it now with Parker's tonic. This remedy will expel the cold at once.

The Misunderstanding Between the Pittsburgh, Fort Wayne and Chicago and the Pennsylvania Companies.

New York, January 22.—The bond and stockholders of the Pittsburgh, Fort Wayne & Chicago met to-day, to take action in regard to the misunderstanding between their company and the Pennsylvania railroad. The latter company claims that when they took possession of the Fort Wayne lines, it was agreed that certain moneys be expended for the betterment of the road and the amount of these expenditures deducted from the annual rents. On the other hand, the Pittsburgh stockholders state that no such agreement was made and the exact wording of the lease was improvement upon and additions to, and nothing mentioned about betterments. The meeting adopted a resolution providing for the appointment of a committee to examine the questions in controversy. The committee consists of Messrs. Louis Von Hoffman, Geddes D. Horse, I. D. Lincoln, of Cincinnati, representing the Springer estate, and Mr. Whitehouse.
